

Dear FCCI am behind Satellite Radio 100%, whether it?s Sirius or XM. I?m was and am still excited about the continuous and innovated improvements both companies have put forth. They have every right to say whatever they?d like. Since I picked up a subscription with XM, I have grown to be very fond of such a service. I no longer listen to regularly broadcasted radio channels or CD?s for that matter. My entire family has joined in as well. I believed in them so much that I bought several shares of stock. I believe in everything they are doing and are trying to provide. Instant Traffic and Weather reports can benefit us all. So please don?t try to stop or put a cap on such a good thing. Allow them to express themselves as the 1st Amendment so lawfully does. So please REJECT the NAB's (National Association of Broadcasters) petition 04-160 as we Americans do across the nation.

Sincerely

Matt Warmus (an avid Satellite Radio Fan and believer)
